

Una cucina con anta a telaio caratterizzata da un design moderno, che può essere interpretata in una unione perfetta di suggestioni romantiche e tratti minimali. Le essenze sono le più attuali, nelle calde tonalità dei Roveri, dei Frassini e del Noce. Una palette di colori tenui o brillanti, lucidi ed opachi che, abbinata alle ante lisce o decorate, rende Gallery capace di esprimere tutta la sua versatilità. Una rivisitazione moderna di tradizioni antiche per l'anta con la maniglia integrata e la presa stondata, che caratterizza la linea trasformandosi in elemento decorativo, intercambiabile con diversi tipi di maniglie a seconda delle preferenze. Gallery, una cucina senza tempo.

A kitchen with framed doors and a modern design that manages to create a perfect blend of romantic charm and minimal lines. The contemporary wood types are available in warm tones of oak, ash and walnut. Gallery's versatility is expressed by its palette of soft and bright colours available in matt and glossy finishes and with smooth or decorated doors. It represents a modern re-interpretation of old traditions such as the built-in handles with rounded grip; these characterise the shape of the doors and become decorative elements that can be combined with different handles based on your preferences. Gallery, a timeless

LUBE ECOLOGIC

IL GRUPPO LUBE HA SCELTO DI UTILIZZARE PER I COMPONENTI COSTITUENTI LE STRUTTURE DELLE CUCINE SOLO MATERIALE A BASSISSIMA EMISSIONE DI FORMALDEIDE: CONFORMI ALLO STANDARD F4STELLE SECONDO LA NORMA JIS, CERTIFICATO DAL MINISTERO GIAPPONESE, IL PIU' SEVERO IN MERITO ALLE NORMATIVE DI SALVAGUARDIA AMBIENTALE.

Regarding the production of its kitchen structure components, lube group has decided to only use materials featuring very low formaldehyde emissions complying with the 4-star standard, as defined by the jis regulation. This standard is certified by the japanese government-the most rigorous when it comes to environmental protection.

APERTURA VERTICALE

VERTICAL OPENING

ESTREMAMENTE FACILE DA UTILIZZARE
EXTREMELY EASY TO USE

gallery

Grazie a **SERVO-DRIVE** basta una leggera pressione sul fronte con la mano o il gomito per aprire automaticamente le ante a ribalta.

Persino i frontali grandi e pesanti si aprono verso l'alto come in totale assenza di gravità. Inoltre, l'utilizzatore della cucina può godere di un accesso ottimale all'interno del mobile.

Thanks to **SERVO-DRIVE**, just apply light pressure to the front panel with the hand or elbow to automatically open the folding doors.

Even large front panels open upwards with a complete lack of gravity. In addition, the opening provides optimum access to the cabinet interior.

Chiusura comoda e semplice, assicurata dall'interruttore facilmente raggiungibile, montato sul fianco del corpo mobile.

Le chiusure delle ante a ribalta risulta così estremamente comoda ed ergonomica, mentre la rinomata funzione **BLUMOTION** garantisce una chiusura dolce e silenziosa.

Simple and comfortable closure by using an easy-to-reach switch fitted on the side of the cabinet.

Closing the folding doors is so easy, comfortable and ergonomic. The renowned **BLUMOTION** function also ensures gentle and silent closing.

KIT TRASFORMATORE

POWER SUPPLY KIT

gallery

Kit trasformatore composto da:
Power supply kit includes:

- 6b** Cavo di distribuzione lunghezza 8 mt
Power supply cable length 8 m
 - 6c** 1 Connettore
Connector
 - 6d** Protezione estremità cavo
Cable end protection
 - 7** Trasformatore universale per tutti paesi del mondo
72 W completo di supporto per il montaggio
Universal power supply worldwide,
72 W complete with mounting bracket
 - 8** Supporto trasformatore
Power supply mounting bracket
 - 9** Cavo di alimentazione elettrica UE
EU electrical power supply cable
- i** Per ogni cavo di distribuzione può essere collegato un solo trasformatore Blum.
Only one Blum power supply may be connected to each power supply cable.

Per il meccanismo elettrico motorizzato SERVO-DRIVE richiedere sempre il kit trasformatore, codice 5615850 - Un trasformatore può alimentare fino a 10 motori.

N.B.: si potrebbero verificare situazioni dove occorre utilizzare più di un kit trasformatore.

For the motorised electric SERVO-DRIVE mechanism, always request the power supply kit: code 5615850 -

One power supply can power up to 10 motors.

NOTE: in some cases one may use more than one power supply kit.

WALL UNITS VERTICAL OBLIQUE OPENING AND BLUMOTION CLOSING SYSTEM

APERTURA VERTICALE OBLIQUA

I pensili con questo tipo di meccanismo necessitano per l'apertura di poco spazio libero sopra il mobile grazie al movimento basculante dell'anta che si apre senza difficoltà applicando poca forza anche in presenza di frontali pesanti. Con l'arresto progressivo le ante si fermano in qualsiasi posizione; in questo modo la maniglia è sempre facilmente raggiungibile. La chiusura è ammortizzata ed è possibile regolare la forza di tenuta in base al peso del frontale.

VERTICAL OPENING OBLIQUE

Wall units that mount this type of mechanism require little clearance above the cabinet thanks to the swivelling movement of the door that can be easily opened by applying slight pressure, even with heavy fronts. The doors stop in any position thanks to the gradual stopping movement; in this way, the handle is always easily accessible. The closing movement is cushioned and the closing force can be adjusted according to the weight of the front door.

	A	B	C	D
H 60	18	9,6	46,5	53,5
H 72	18	9,6	57	61

APERTURA VERTICALE

L'anta ad apertura verticale, potendo essere sollevata completamente verso l'alto, consente un accesso totale all'interno del pensile. Ideale per l'impiego in mobili a colonna per nascondere ad esempio apparecchi elettrici, o pensili con corpi mobili sovrastanti, ha la chiusura ammortizzata e la possibilità di regolare la forza di tenuta in base al peso del frontale.

VERTICAL OPENING

Doors with vertical opening movement can be fully raised to fully access the inside of the wall unit.

Ideal for use on column units to conceal electrical appliances for examples, or on wall units surmounted by mobile units.

The closing movement is cushioned and the closing force can be adjusted according to the weight of the front door.

PENSILE CON APERTURA ANTE A PACCHETTO

Il meccanismo d'apertura ante a pacchetto è idoneo sia sul pensile H 72 che H 96; la regolazione della forza di apertura può essere impostata in modo esatto in base ai pesi dei frontali, la chiusura è ammortizzata e la cerniera centrale clip si contraddistingue per l'innovativa tecnologia che garantisce la sicurezza per le dita.

WALL UNIT WITH LIFT-UP FOLDING DOOR

The lift-up folding door opening mechanism is suitable for wall units with H 72 or H 96; the opening force can be adjusted precisely according to the weight of the fronts, while the closing movement is cushioned and the central clip-on hinge features innovative technology for safeguarding the fingers.

SCHEMA MONTAGGIO LIMITATORE LIMITER INSTALLATION DIAGRAM

Per evitare l'interferenza dell'anta in fase di apertura con cornici o mensole, si può richiedere il limitatore dell'angolo di apertura cod. 5620005

In order to avoid that the door interferes with cornices or shelves during the opening movement, it is possible to request an opening angle limiter: code 5620005

FLAP DOOR WALL UNITS BLUMOTION CLOSING SYSTEM

PENSILE CON APERTURA A RIBALTA

Le ante aprendosi verso l'alto consentono di avere un' ampia visione d'insieme all'interno del mobile. In questo modo è possibile un comodo accesso agli oggetti contenuti al suo interno e, dal punto di vista ergonomico, molto vantaggioso. La regolazione della forza di apertura può essere impostata in modo esatto in base al peso del frontale. Grazie all'arresto progressivo le ante si fermano in qualsiasi posizione; in questo modo la maniglia è sempre facilmente raggiungibile. La chiusura è ammortizzata e un'unica manovra è sufficiente per regolare il frontale tridimensionalmente grazie all'assenza di cerniere e al sistema di aggancio clip.

WALL UNIT WITH FLAP DOOR

The doors that open upwards guarantee ample overall visibility inside the cabinet. In this way, all objects housed inside the cabinet can be comfortably accessed, making the system highly advantageous from an ergonomic perspective. The opening force can be adjusted precisely according to the weight of the front. The doors stop in any position thanks to the gradual stopping movement; in this way, the handle is always easily accessible. The closing movement is cushioned and a single manoeuvre is required to three-dimensionally adjust the front, thanks to the clip-on system and the absence of hinges.
