## MADE IN ITALY: NORMA UNI 11674

La norma tutela l'acquirente garantendo l'origine italiana e le prestazioni di sicurezza e durata del prodotto, entrambe verificate periodicamente da uno dei più importanti laboratori di prova e certificazione per il legno-arredo in Italia: COSMOB.

## MADE IN ITALY: STANDARD UNI 11674

This standard protects purchasers by guaranteeing the Italian origin, safety performance and useful life of products, both periodically verified by one of the leading testing and certification labs for wooden furnishings in Italy: COSMOB.

## GREENGUARD

Il Programma di Certificazione GREENGUARD certifica che tutte le strutture dei prodotti a marchio LUBE e CREO sono conformi agli standard più rigorosi in termini di livelli di emissione di Composti Organici Volatili (COV) emessi da mobili, superfici e vernice oltre ad altre sostanze chimiche nocive negli ambienti interni.

## GREENGUARD

The GREENGUARD certification programme certifies that all structures of LUBE and CREO products comply with the strictest standards in terms of emissions of volatile organic compounds (VOCs) from furniture, surfaces and coatings, as well as other harmful chemical substances in interior environments.

## PANNELLO ECOLOGICO

Le strutture dei mobili LUBE e CREO sono realizzate con pannelli composti da legni riciclati al 100%, certificati dal Consorzio Pannello Ecologico e con materiali a basso impatto ambientale, certificati per la bassa emissione di formaldeide.

## ECOLOGICAL PANELS

LUBE and CREO structures are created with panels made from 100% recycled wood, certified by the Eco-Panel Consortium, and from environmentally friendly materials, certified for low formaldehyde emissions.

## GRUPPO LUBE ECOLOGIC

Il Gruppo LUBE utilizza per i componenti delle cucine (tutte le strutture, alcune ante e alcuni complementi), materiale conforme al regolamento EPA TSCA TITLE VI, uno dei più severi in merito alle normative di salvaguardia ambientale.

## ECOLOGICAL PANELS

The LUBE Group uses for kitchen components (all carcasses, some doors and some accessories), material that complies with the EPA TSCA TITLE VI regulation, one of the strictest regarding environmental protection regulations.

## SOSTENIBILITÀ AMBIENTALE

Lube Industries srl è dotata di Sistemi di Gestione per l'Efficienza Ambientale, per la Qualità e per la Salute e la Sicurezza sul Lavoro, in conformità alle norme: UNI EN ISO 14001, UNI EN ISO 9001 e UNI EN ISO 45001.

## ENVIRONMENTAL SUSTAINABILITY

Lube Industries S.r.l. implements management systems for environmental efficiency, quality, and occupational health and safety, in conformity to the following standards: UNI EN ISO 14001, UNI EN ISO 9001 and UNI EN ISO 45001.

The mark of responsible forestry

## FSC®

La certificazione FSC® rappresenta il principale meccanismo di garanzia sull'origine del legno o della carta, con questa certificazione Lube Industries ha deciso di rendere noto il suo impegno nei confronti dell'ambiente e si schiera contro il disboscamento incontrollato e il taglio illegale di foreste.

## FSC®

FSC® certification is the leading mechanism guaranteeing the origin of wood and paper. With this certification, Lube Industries has decided to demonstrate its commitment to the environment and stand against uncontrolled deforestation and illegal felling.

## FOTOVOLTAICO

Energia pulita per prodotti di qualità. Un impianto fotovoltaico, installato nella sede aziendale, copre la superficie di 40.800 mq ed eroga una potenza di 6,2 MWp. L'energia prodotta quotidianamente dai pannelli solari, circa 6000 KWh, è in grado di soddisfare il fabbisogno dei processi produttivi aziendali.

## PHOTOVOLTAICS

Clean energy for high-quality products. A photovoltaic plant, installed at the company headquarters, covers an area of 40,800 m2 and has a power output of 6.2MWp. The energy generated daily by the solar panels, approximately 6,000 KWh, is enough to meet the company's production needs.

Le ante laccate UV nella finitura opaca, sono sottoposte, nella parte frontale, a un processo di verniciatura attraverso la tecnologia "ECCIMERI". Tale trattamento conferisce alle ante una superficie ULTRA OPACA (3 gloss), con effetto SOFT-TOUCH e una maggiore resistenza al graffio.

UV lacquered doors in matt finish, are subjected to a painting process, in the front side, through "ECCIMERI" technology. This treatment gives the doors an ULTRA MATT surface (3 gloss), with SOFT-TOUCH effect and increased scratch resistance.

## ANTE FINITURA SELCE DOORS FLINT FINISH

selce grigio chiaro (opz.MT13)  
venatura orizzontale

selce nero (opz.MT14)  
venatura orizzontale

**i**

**MATHERA** viene proposta in tre diverse finiture:

**AREIA:** caratterizzata da una texture più uniforme e compatta, reinterpreta le tecniche di bocciardatura tradizionalmente ispirate dalla pietra arenaria, nelle finiture: areia beige (opz.MT02), areia grigio (opz.MT03), areia nero (opz.MT04)

**GIPSO:** superficie morbida, declinata in una palette di colori tenui e pastosi che interpretano la consistenza malleabile del gesso e la sua natura di materiale tenero di origine calcarea, nelle finiture: gipso grigio (opz.MT23), gipso rosso (opz.MT24), gipso verde (opz.MT22)

**SELCE:** ispirata al mondo delle pietre a spacco, rielabora in veste originale e creativa le qualità estetiche dell'ardesia. Si caratterizza da ritmiche increspature assimilabili ai segni impressi sulle superfici lapidee dalle lavorazioni di cava, nelle finiture: selce grigio chiaro venatura verticale (opz.MT13), selce nero venatura verticale (opz.MT14)

**MATHERA** is available in three different finishes:

**AREIA:** Characterized by a more uniform and compact texture, Areia reinterprets the bush hammering techniques traditionally inspired by sandstone. finishes: beige areia (opz.MT02), grey areia (opz.MT03), black areia (opz.MT04)

**GIPSO:** Soft surface, declined in a palette of soft and mellow colors. Gipso is a neutral finish that interprets the malleable consistency of gypsum and its nature as a soft material of limestone origin, finishes: grey gipso (opz.MT23), red gipso (opz.MT24), green gipso (opz.MT22)

**SELCE:** Inspired by the world of split stones, Selce reworks the aesthetic qualities of slate in an original and creative way. It is characterized by rhythmic ripples similar to the signs imprinted on the stone surfaces by quarrying, finishes: light grey flint vertical grain (opz.MT13), black flint vertical grain (opz.MT14)

anta sp.22 mm costituita da un pannello composto da particelle in agglomerato di legno (conforme US EPA TSCA Title VI) con esterno rivestito in foglia polimerica PET finitura spazzolata lucida effetto metallo e retro in melaminico. Bordatura 4 lati in ABS 10/10.  
22 mm thick door made of a panel composed of particle board agglomeration of wood (US EPA TSCA Title VI compliant) with leaf-covered exterior polymer PET metal effect glossy brushed finish and melamine interior. 4 sides ABS10/10 edging.

Il polietilenteraftelato, conosciuto sotto l'abbreviazione PET, è una materia sintetica moderna, ecologica e riciclabile al 100%. 

Le principali caratteristiche che lo diversificano dalle tradizionali materie plastiche sono la flessibilità e l'eccellente stabilità dimensionale che lo rendono inalterabile nel tempo. L'elevata resistenza al calore, all'usura ed all'invecchiamento termico fanno del PET uno dei materiali più innovativi ed orientati al futuro.

The polyethylene terephthalate, abbreviated as PET, is a modern synthetic material, environmentally friendly and 100% recyclable. The main features that distinguish it from traditional plastics are its flexibility and excellent dimensional stability, which renders it unalterable over time. Its high resistance to heat, wear and thermal ageing makes PET one of the most innovative, future-oriented materials.

Le ante impiallacciate WOOD sono sottoposte a un processo di verniciatura trasparente mediante tecnologia ad "ECCIMERI".  
Tale trattamento conferisce alle ante una superficie ULTRA OPACA (circa 5 gloss), con effetto SOFT-TOUCH e una maggiore resistenza al graffio.  
La parte posteriore dell'anta non è soggetta al trattamento sopraindicato, viene rivestita con impiallaccio in tinta ma con caratteristiche differenti rispetto al frontale.

The WOOD veneered door is subject to a transparent painting process using the "ECCIMERI" technology.  
This treatment gives the doors an ULTRA MATT surface (about 5 gloss), with a SOFT-TOUCH effect and a greater scratch resistance. The rear part of the door is not subject to the above treatment, it is covered with matching veneer wood that has different characteristics than the front.

# LAMINATO CANNETTATO

REED-EFFECT LAMINATE

anta sp.22 mm costituita da un pannello composto da particelle in agglomerato di legno (conforme US EPA TSCA Title VI) rivestito frontalmente con laminato Sp. 4 mm con effetto cannettato, bordato ABS 10/10 in tinta.

# CASSETTI E CESTONI "INTIVO"

"INTIVO" DRAWERS AND BASKETS

I sistemi "Intivo" garantiscono l'estrazione totale dei cassetti e cestoni e sono equipaggiati con fermo di fine corsa e sistema ad incastro per bloccaggio anti-sganciamento. Nei cassetti e cestoni con larghezza fino a 120 cm la portata dinamica è di 50 kg e 30 kg nelle profondità ridotte. Il movimento silenzioso ed ammortizzato è garantito per oltre 100.000 cicli di apertura/chiusura.

"Intivo" systems ensure full extraction of drawers and baskets and are equipped with end stop and interlocking system for anti-release locking. In drawers and baskets with widths up to 120 cm, the dynamic load capacity is 50 kg and 30 kg in shallow depths. The quiet, damped movement is guaranteed for more than 100,000 opening/closing cycles.
